Andrew -

Ditto for Inhofe #65.

Andrew -

I understand that you are the OECA lead for responding to several questions from the SEPW from a hearing last March. I have been tasked with coordinating the Region 6 input to the SEPW response. In order to maximize efficiency on this, can you tell me if you have any specific needs from Region 6 on OECA's response to Senator Inhofe's question #61 (duplicated below)?

Inhofe, Question #61 (OECA lead)

In Parker County, TX, Dimock, PA, and Pavillion, WY, EPA is studying and in some cases issuing orders or conducting actions related to private drinking water wells. Please list all regulatory authority, and the circumstances that would spur the use of that authority, for EPA to intervene over a State in the regulation, investigation or care of private drinking water wells.
